Preface

Dear colleagues,

We are pleased to invite you to the Workshop on oral, gastrointestinal and pulmonary GvHD 2017 held in Regensburg. Acute and chronic GvHD continues to be associated with significant morbidity and mortality representing an ongoing challenge in clinical care. Recently, new insights in the pathophysiology of microbial changes associated with different organ GvHD (oral mucosa, gastrointestinal tract and lung) and their impact on immunoregulation have been achieved, their translation into clinical success remains challenging.

The workshop on oral, gastrointestinal & pulmonary GvHD will provide a comprehensive overview on pathophysiology including microbiological changes, and will provide an update on diagnosis, immunosuppressive and supportive treatment of the latter organ manifestations.

The workshop is supported by the Falk Foundation e.V.

E. Holler, M. Edinger, W. Herr, M. Evert, D. Weber, A. Gessner, D. Wolff (Regensburg, Germany)
H. Greinix (Graz, Austria), A. Lawitschka (Vienna, Austria), J. Halter (Basel, Switzerland)
G.C. Hildebrandt (Lexington, USA), S.Z. Pavletic (Bethesda, USA)

Scientific Dialogue in the Interest of Therapeutic Progress

HALF A CENTURY OF PROMOTING MEDICAL EXCHANGE

Conferences that advance medicine and research: 50 years ago, Herbert Falk, MD, PhD, organized a week-long event in Freiburg devoted to the liver – it was his first symposium and the start of an extraordinary success story.

Since then, 207 additional events have been held worldwide, featuring speakers who are pioneers in their fields. To date, more than 130,000 physicians and researchers from around the world have participated in our symposia, and the strong interest in our upcoming events shows that this concept remains appealing. We take great pride in this! Since the very beginning, all of our events – whether large or small – have been based on the principle of providing neutral continuing medical education

that benefits research, treatment, and ultimately the patient.

We would like to offer our deepest thanks to everyone who has participated, and we look forward to further advancing scientific dialogue as we continue to advocate for more knowledge sharing and therapeutic progress!

Allow us to welcome you to the Falk Foundation symposia – now and for many years to come!
